Researching the Policy Manual

Scroll through the Table of Contents of a particular section or series to find the policy you wish to view. At this point you may scroll through the pages of that series until you locate the policy you are looking for or you can find the policy or topic by using the embedded search engine, known as "Find" or "Search."

If you are looking for a policy and you wish to see if there is any reference to (as an example) remodeling a facility, all you have to do is click on the "Edit" tab on the tool bar, then click on either "Find" or "Search." A dialog box will open and you can type in the word "remodeling" in the window. Then click on the "Find," "Search" or "Enter" button and you will be directed to Policy 7110 with the word "remodeling" highlighted. You will then be able to scroll through all of the policies in which the subject "remodeling" appears.

The second "search tool" is provided is a topical search tool that will help you search for a policy based on the topic you are seeking rather than a particular word. Again, click on the "Edit" tab on the tool bar, then click on "Find." In the dialog box, type in a word that represents a topic you are looking for, such as, "meeting." When using this search tool, you *must* add an exclamation mark (! i.e., meeting!) immediately after the topic word – meeting! This will take you to all policies that deal primarily with meetings.

Using "Find" or "Search" will make researching the Board of Education District Policy Manual fast and efficient.

The *only* Official Policy Manual for the School District is on file with the Superintendent of Schools. Only policies in the Official Policy Manual should be considered accurate and up-to-date.
