

Good afternoon families of the Penns Grove- Carneys Point Regional School District. As we continue to grow and advance our teaching and learning in this unique time, we will be beginning the Measure of Academic Progress (MAP) both in school and remotely the week of September 28. MAP is used by teachers to evaluate student levels and progress throughout the year, in order to make informed decisions about each child's individualized program. Please be mindful, to allow the students to perform to the best of their abilities without your assistance. The authenticity of student work is vital to their success.

In addition, please be reminded that you are expected to allow your students to participate in any synchronous (live) learning in a location free of distractions or adult presence as part of school district policy 2111.6.

We appreciate the support you continue to provide to your children to help them improve while at home and look forward to continuing our partnership as we build each child's personal leadership and achievement.
