

Renaissance Rewards 02-16-2017

Our Renaissance students were treated to an assembly on 2/16/2017. Renaissance students must maintain good academics as well as attendance and conduct.

Snakes-N-Scales is a group that travels to schools to educate the public about the rescued & endangered creatures in their show. The students were able to see alligators, lizards and snakes up close and personal. They learned about each animal's habitat and what makes that creature unique and special. It was an interactive fun event that was a huge success. Thank you to Pat Filippello for organizing this event.
