

The photos attached showcase the first ever holiday toy and food drive developed and implemented by the R.O.P.E. students of Paul W. Carleton Elementary. With the collective efforts of the program participants they've managed to collect over 200lbs of nonperishable food items as well as numerous holiday items that could distributed as gifts for others less fortunate. Each R.O.P.E. student strives to not only better themselves, but their community as well. At Paul W. Carleton we aim to develop and provoke a more mindful student who embraces change and understands the true intrinsic value of success.
