

GRADE 1 NEWS III

Students have been diligently working on decoding new words to strengthen their reading skills. We are amazed at the progress! We have studied the elements of fictional stories and are examining the text features of non-fiction books. Math has taken us many different ways while practicing our addition/ subtraction and problem solving. Our Helping Hands Garden is still going strong with some winter crops. Some students have enjoyed salad made with lettuce and kale. It was delicious!!! 1st graders are pumped and ready to rock their Generosity Week by giving to our food bank drive. We are competing against 2nd and 3rd grade for the most donations! The drive runs until December 20th.

Get those donations in!
